

## PRODUCT PRICE SHEET

### GLABRIDIN(REAGENT GRADE) (Part# ASB-00007243-101)

#### DESCRIPTION

Glabridin is the main compound in the hydrophobic fraction of licorice extract. It is known for its beneficial effects on the skin due to its anti-inflammatory and antioxidant properties. In addition, glabridin inhibits melanogenesis. Some researchers have established that this effect may be due to the inhibition of tyrosinase activity.

ChromaDex has been involved in the isolation of high purity glabridin and other related compounds, for over 5 years. Much of the glabridin used for several of the publish studies was produced by ChromaDex. Over the years we have increased our scale and now we can manufacture kilogram quantities of the highest quality material available.

#### GLABRIDIN BULK PRICING

Part#	Description	Qty	Price(US\$)
ASB-00007243-100	GLABRIDIN(RG) 90%	100g	CALL
ASB-00007243-101	GLABRIDIN(RG) 90%	1 kg	CALL

#### PHYSICAL CHARACTERISTICS

DESCRIPTION:	Fine free-flowing crystalline powder
COLOR:	Off-white
ODOR:	Characteristic
TASTE:	Characteristic
LOSS ON DRYING:	NMT 2.0%

#### ASSAYS

CHEMICAL ASSAY(HPLC):	NLT 90%
RESIDUAL SOLVENT	NMT 1.0%
