

**Nicole Beauchamp, Ph.D.**  
**Staff Science Consultant**

Nicole Beauchamp is a staff science consultant at Spherix Consulting. As a member of Spherix Consulting, Dr. Beauchamp is dedicated to providing her clients with thorough and personal support for their regulatory and scientific needs.

Dr. Beauchamp received her Ph.D. from Wake Forest University School of Medicine in Winston-Salem, North Carolina. She is an immunologist and experienced researcher, specializing in regulation of adaptive immunity. During her postdoctoral fellowship at the National Institutes of Health, Dr. Beauchamp was a member of the Fellows Editorial Board where she assisted in the review of manuscripts. She has contributed to several peer-reviewed publications and has presented data at an international conference. Dr. Beauchamp has developed animal protocols for Institutional Animal Care and Use Committee, and developed and judged events for state level Science Olympiad.

At Spherix Consulting, Dr. Beauchamp provides guidance regarding dietary supplements, food ingredients, pharmaceuticals, chemistry, biochemistry, and analytical method development, particularly in the preparation of Generally Recognized As Safe (GRAS) dossiers, New Dietary Ingredient Notifications (NDIN), Novel Foods Submissions, Investigational New Drug Applications (IND), and New Drug Applications (NDA). Her goal is to provide clients with a clear understanding of the science that is appropriate to use in demonstrating the safety and/or efficacy of their products.
